

## Let's Talk about Nature! Sample Social Media Posts

### Facebook

Young children, beginning at birth, are naturally curious about the world around them. Infants and toddlers learn about their environment by touching, smelling, tasting, seeing, and hearing. Learn more: <http://bit.ly/2uJEWBI> #TalkingIsTeaching

Outdoor activities are great for fostering children's curiosity about the natural world and building early science skills! Check out these age-appropriate science concepts you can explore with your child when playing outside: <http://bit.ly/2c1LrMv> #TalkingIsTeaching

Like sharing or taking turns, gratitude is a skill that children can learn through everyday activities and conversations. Learn more on @2SmalltoFail's blog: <http://bit.ly/2hMceeA> #TalkingIsTeaching

### Twitter

Exploring the world is important for children's development. Being able to touch, smell & even taste helps them learn! #TalkingIsTeaching

Check out the age-appropriate science concepts you can explore w/ your child when playing outside <http://bit.ly/2c1LrMv> #TalkingIsTeaching

Outdoor activities are great for fostering children's curiosity about the natural world & building early science skills! #TalkingIsTeaching

This fall, encourage your child to practice an attitude of gratitude through daily activities & conversations <http://bit.ly/2hMceeA>

Pointing out acts of kindness and things you are grateful for can help your child develop an attitude of gratitude. #TalkingIsTeaching
