

## Let's Talk About Summer!

### Sample Social Media Posts

#### Facebook

Turn a warm day into an opportunity for an easy science experiment. Take an ice cube out of the freezer and put it in a cup. Ask, “What do you think will happen if we bring this ice cube outside?” For more everyday science activities, click here: <https://bit.ly/3fE716w>

Share kindness every day! This summer, write a poem on a sheet of paper with your little one about what kindness means to your family. Then, decorate the paper with fun summer doodles! For more ideas on how to share kindness, visit <https://talkingisteaching.org/kindness>

For a summery and healthy treat, make popsicles with your toddler! Pour your child’s favorite juice into an ice cube tray and stick popsicle sticks inside. Then, let freeze. This fun treat is a great way to cool off on a hot day! If you don’t have an ice cube tray, you can cut up chunks of fruit as a fresh and yummy snack! As you enjoy the treat, talk about the color of the snack and how it tastes! #TalkingIsTeaching

On hot summer days, talk with little one about all the different ways to cool off! “How can we cool off on a warm day? We can drink lots of water, turn on a fan, or splash in the tub!” #TalkingIsTeaching

With your child, talk about all of your favorite things to do in the summer! “I love going to the playground with you! What do you like to do in the summer?” #TalkingIsTeaching

There are so many summertime sounds, from crickets at night and the sound of cars driving along the road, to birds chirping in the morning and families playing together. With your little one, talk about all of the summer sounds you hear! #TalkingIsTeaching
